

EZ Clear Optical Lens & Glass Wipe (not for use on Touch or Plasma Screens)

K2-WCT50

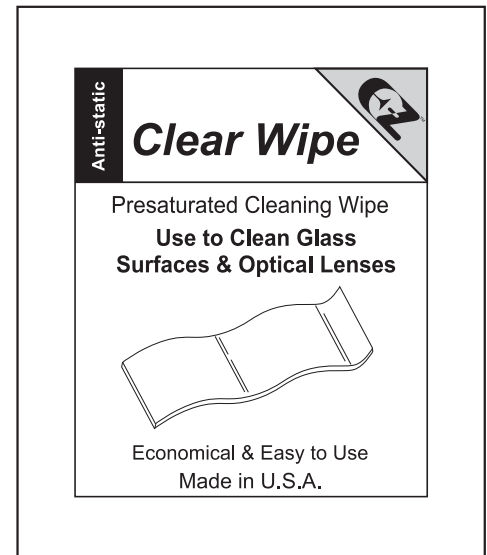

This product is designed to clean dirt and fingerprints from glass surfaces and optical lenses. This soft, lint-free wipe is saturated with a special optical glass cleaner that is not recommended for plasma or LCD screens.

When used it will:

- Clean prints and dust from glass surfaces and optical lenses
- Clean plastic surfaces

Use as:

- A scheduled maintenance product
- An emergency maintenance product

How Cleaning Products Work

Transaction devices, such as card readers and thermal printers, need to be maintained for performance reliability. Cleaning cards and products safely and easily remove dirt and other contaminants from within these devices without costly outside assistance. Each transaction device requires specific cleaning products to be used as preventive or corrective maintenance.
