

EZ Wipes Saturated with IPA Cleaning Solution

This product is designed to clean accessible thermal print heads utilizing a soft lint free wipe saturated with industry recommended IPA. When used they will:

- Clean the print head of contaminates
- Clean platen roller
- Clean interior components

Use as:

- A scheduled maintenance product to prevent poor printing
- An emergency maintenance product to correct poorly printed material

How Cleaning Cards Work

Cleaning Cards clean transaction devices. Each transaction device requires specific cleaning products to maintain the reliability of the device. These products can be used as a preventive or corrective maintenance.
