

Cleaning to Prevent Errors

Key Cleaning Swab

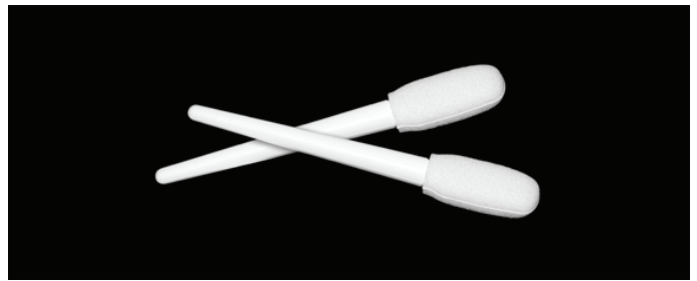

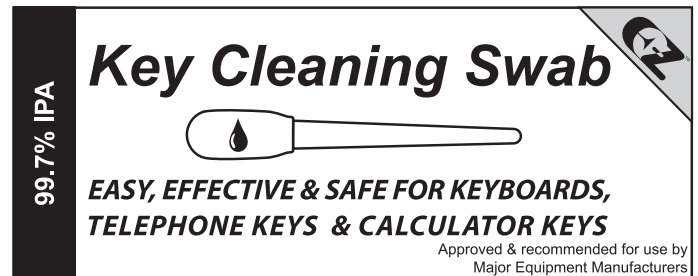

K2-SKB20

This product is designed to clean keyboard surfaces, including in between and around keys, with it's compact foam tip. When used it will:

- Clean debris from the surface of keys
- Clean debris from in between the keys
- Clean surfaces around keys

Use as:

- A scheduled maintenance product to prevent keys from building up sticky debris
- An emergency maintenance product after a spill on keys or keyboards

How Cleaning Products Work

Transaction devices, such as card readers and thermal printers, need to be maintained for performance reliability. Cleaning products safely and easily remove dirt and other contaminants from within these devices without costly outside assistance. Each transaction device requires specific cleaning products to be used as preventive or corrective maintenance.
