Cleaning the Seac Banche CM 3000, SB Series, RDS Series, and Orion Document Scanners is Easier Using Waffletechnology® Cleaning Cards

AUBURN, Maine—Sept. 20, 2010 —[Seac Banche](#), a leading provider of document imaging technology, and [KICTeam](#), the industry leader in the manufacturing of [cleaning cards](#), today announce the release of two products designed to remove dust, paper particles, and inks from Seac Banche document scanners. One product is designed specifically for the Seac Banche CM 3000; the second for the SB Series, RDS Series and Orion Documents Scanners.

“The [Seac Banche Cleaning Cards](#) are to be used as an overall preventive maintenance program,” said Shane Kirk, general manager of Seac Banche USA, Inc. “This Waffletechnology designed cleaning tool provides Seac Banche customers an effective means of cleaning scanners and maintaining image quality.”

“This new product will serve a vital function in maintaining a clean scanned image on Seac Banche’s document scanners,” explained Peter Klein, president and CEO of KICTeam. “[Waffletechnology](#) performs this function without dismantling the equipment, making it easy to use in any working environment. This item is now a part of our fastest growing product segment as more businesses recognize the importance of clear unblemished document scans.”

The [Seac Banche Cleaning Cards](#) are available immediately through Seac Banche. The cards will also be available through authorized Seac Banche dealers, resellers, and select distributors.
