

EZ-Strips 101mm x 152mm Thermal Print Head Refurbishing Strips

K2-KF46Z6

This kit is designed to refurbish thermal print heads that have an excess of burnt-on contaminants. These refurbishing strips, which can be used on all types of direct and ribbon transfer printers, will clean the print head, correcting poor prints. When inserted it will:

- Refurbish thermal print head
- Bring a “dead head” back to life

Use as:

- An emergency maintenance product to correct poorly printed material

Kit Includes:

- 6 - 2” x 6” EZ refurbishing strips
- Resealable pouch with usage label

How Cleaning Products Work

Transaction devices, such as card readers and thermal printers, need to be maintained for performance reliability. Cleaning products safely and easily remove dirt and other contaminants from within these devices without costly outside assistance. Each transaction device requires specific cleaning products to be used as preventive or corrective maintenance.
